GLOBAL INFLUENCE OF THE INDIAN IT SECTOR DISCUSSED DURING FIRST EVER EVENT ORGANIZED BY ITSERVE ALLIANCE AT THE INDIAN CONSULATE IN NEW YORK

I see the 2,500 companies that represent ITServe Alliance, mostly with Indian connection, Indian origin, serving this country in a very critical way, and serving India back home with critical services," said Ambassador Binaya Srikanta Pradhan, Consul General of India, an experienced diplomat and ambassador, in his inaugural address at the first-ever event hosted jointly by the Indian Consulate and ITServe Alliance at the iconic Ballroom of the Indian Consulate in New York on Friday August 29, 2025.

With focus on "Global Influence of the Indian IT Sector," the event, organized by ITServe Alliance in coordination with the New York, New Jersey, and Philadelphia Chapters of ITServe and their respective leaders, Baswa Shaker Shamshabad, Subrahmanyam Osuru, and Sitaram Mukkamala. The event was eloquently emceed by Hema Dommaraju and Rajasekhar Borusu.

Describing IT Sector as "a critical element, not only in our bilateral trade, but also overall bilateral relationship," Ambassador Pradhan complemented ITServe and its member companies for their contributions to the growth of the US and Indian economies. "This is a moment of pride for me that we are doing the first event after 15 years of your existence. It should be a more regular affair than such a sporadic thing. I look forward to working very closely with ITServe. And, if I can be of any assistance, please don't hesitate to reach out. Thank you."

Ambassador Pradhan spoke extensively about the critical role being played by the IT industry led by India, fostering stronger ties between India and the United States. The career diplomat, who has served in Moscow, Turkmenistan, Pakistan, and Tanzania, where he helped establish India's first overseas IIT campus, shared his insights on India-US partnerships and the vital role of the Indian diaspora in building global innovation.

ITSERVE ALLIANCE'S CONTRIBUTIONS TO STEM EDUCATION EMPOWER FUTURE GENERATIONS

"Since its inception in 2010, a major objective of ITServe Alliance has been to contribute towards empowering local communities through a wide range of initiatives," said Anju Valbhaneni, President of ITServe and CSR – Board of Director. "We believe in the transformative power of education, especially in rural communities across the United States. Towards this end, ITServe is proud to invest in STEM scholarships, STEM training, and STEM internships, which enable our youth to reach their full potential and contribute to a thriving society."

The numerous noble initiatives of ITServe are planned, initiated, and organized through the ITServe Alliance Corporate Social Responsibility (CSR). ITServe, the organization of multi-talented individuals, sets targets every year for awarding STEM scholarships and other initiatives, thus providing life-changing opportunities to deserving individuals and empowering and helping educate a diverse group of individuals from across the nation.

NEARLY HALF OF FORTUNE 500 COMPANIES FOUNDED BY IMMIGRANTS OR THEIR CHILDREN

A recent analysis of the 2025 Fortune 500 list reveals that 46.2 percent of America's largest companies—231 out of 500—were founded by immigrants or their children. These companies collectively generated an impressive $8.6 trillion in revenue during the fiscal year 2024 and employed over 15.4 million people worldwide. This data underscores the crucial role that immigrants play in driving innovation, economic growth, and job creation in the United States.

This marks the highest percentage recorded since the American Immigration Council began tracking immigrant entrepreneurs in its annual reviews of the Fortune 500 list in 2011.

"Immigrants are a driving force behind America's prosperity. We need immigration policies that reflect that, instead of investing billions of dollars into detention, deportation, and making it incredibly difficult for foreign workers to come here or even renew their visas. These reckless policies undermine America's greatest competitive advantage: the talent and drive of immigrants," said Nan Wu, director of research at the American Immigration Council.

HOW DEEP DIVE IN AI CAN HELP MANKIND, BUT AI CAN'T REPLACE HUMAN INTELLIGENCE

We are aware that the change in information is proportional to the total accumulative existing knowledge on a particular subject and hence this leads to its exponential growth. Yet no matter how much the processing power of AI is, it will still remain bound by the existing knowledge and the environment that produced it.

We normally find almost anything on the internet by using search engines like Google, Yahoo, Bing, etc. For most of our daily work and understanding this simple search is sufficient. Even researchers use these types of tools to find scholarly papers, patents, etc.

However Artificial Intelligence (AI) has shown us that we can dive deeply into any topic, and the results are amazing.

SPOTLIGHT

Anil Atyam
Joint Secretary, ITServe

As CEO of Algorithm Inc., I drive innovative technology solutions that create measurable business impact. Alongside my professional role, I have been deeply committed to ITServe Alliance, serving two terms as DMV Chapter President and contributing as Speakers Chair, Director of Technology, and Associate Director for Synergy 2024.

Currently, I serve as Joint Secretary (2025) and support the Synergy Speakers and Entertainment Committees, helping onboard keynote speakers and curate seamless program flows. My vision is for ITServe to remain the national voice for IT entrepreneurs—advocating for fair immigration reforms, supporting small and mid-sized businesses, and fostering networking, knowledge exchange, and growth for our members.

Through collaboration and innovation, I am committed to strengthening ITServe's leadership and impact nationwide.

Murali Bandlapalli
Bylaws Director, ITServe Alliance

I have been an active member of ITServe Alliance for nine years, serving in leadership roles at both the Austin Chapter and National levels. My journey includes Austin Chapter President (2021), National Joint Secretary (2022), CPAC Secretary (2023), and National Secretary (2024), where I focused on collaboration, communication, and compliance.

Currently, as Bylaws Director, I oversee governance, compliance, and updates to ensure alignment with ITServe's structure and values.

My mission is to promote transparency, consistency, and accountability, making the Bylaws a living document that reflects ITServe's growth, innovation, and diversity.

IN-FOCUS

Praveen Chakraraj

Raleigh Chapter- President

Founder and CEO of SunTechPros, with over 20 years of delivering innovative IT services, I joined ITServe Alliance in 2022 at the inception of the Raleigh Chapter and played a key role in expanding membership. As Chapter President, I focus on driving member benefits, fostering collaboration, and advancing our mission.
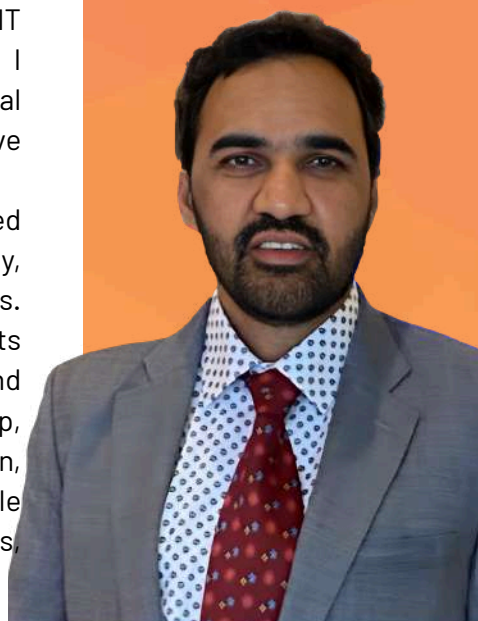

I actively support ITServe's CSR programs, from recognizing first responders to educational and community initiatives. Beyond ITServe, I am a co-owner of a Minor League Cricket franchise, passionate about promoting teamwork and sportsmanship. A devoted philanthropist and family man, I strive to balance professional leadership with giving back to the community and quality time with loved ones.

Mallik Medarametla

President, Atlanta Chapter

I am the Founder and Chief Architect of SampraSoft, a technology solutions company specializing in Cloud, Data, and Generative AI. With over two decades of experience in IT consulting, cloud strategy, data engineering, and AI/ML, I have helped organizations of all sizes achieve digital transformation through scalable and cost-effective solutions.

As an active member of ITServe Alliance, I have contributed to initiatives that strengthen the IT consulting community, fostering collaboration and supporting entrepreneurs. Currently, as President of the Atlanta Chapter, I lead efforts to enhance member engagement, build partnerships, and represent the chapter nationally. Under my leadership, Atlanta has hosted impactful events on AI, immigration, sales, marketing, wellness, and federal contracting, while also driving CSR efforts like blood drives, medical camps, and education support.

IMMIGRATION NEWS

COURT RULING INTRODUCES CHANGES FOR GREEN-CARD APPLICANTS

A recent federal court decision has marked a pivotal moment for foreign nationals seeking permanent residency in the United States through the EB-5 immigrant investor program. Under this ruling, EB-5 investors are no longer required to keep their investments "at risk" for longer than two years, affirming a current U.S. Citizenship and Immigration Services (USCIS) policy and dismissing a legal challenge from a trade group representing regional investment centers.

The EB-5 visa program, introduced in 1990, offers wealthy foreign nationals a path to U.S. residency by investing in American projects. However, the program has faced criticism over potential abuses. The court's decision helps reduce the financial and procedural uncertainties for applicants by providing a clear timeline...

US ADMN. PROPOSES FOUR-YEAR TIME LIMIT FOR FOREIGN STUDENT VISAS

DHS Files New Rule in Federal Register
The Trump administration has introduced a proposal to impose a four-year time limit on certain non-immigrant visas, including F (student), J (exchange), and I (media) visas. The plan, filed in the Federal Register by the Department of Homeland Security (DHS), aims to tighten immigration rules and address what officials describe as growing challenges in monitoring long-term visa holders.

Why It Matters
International students and exchange visitors have increasingly been the focus of U.S. immigration enforcement. Many student visa holders have already faced delays, revoked status, and embassy interview backlogs under the Trump administration. If enacted, the new rule could create uncertainty for students, researchers, and media professionals coming to the U.S., critics warn.

Miriam Feldblum, president and CEO of the Presidents' Alliance on Higher Education and Immigration, said the move would "create additional uncertainty, intrude on academic decision-making, increase bureaucratic hurdles, and risk deterring international students, researchers and scholars from coming to the United States."
